RE: The Nuclear Regulatory Commission's "White Flag" Finding at
Palo Verde Nuclear Generating Station

Dear Colleagues:

I join Commissioner Mayes in her request that the Commission schedule a Special Open Meeting to discuss NRC's recent finding that the operation of Palo Verde Nuclear Generating Station warrants increased regulatory oversight. In addition to a briefing from APS, it would be helpful if NRC representatives could be available to address any questions that might arise during the meeting.

Therefore, I suggest that the Commission direct the Executive Director to invite the NRC to participate in a meeting on this subject and to schedule the meeting accordingly.

Sincerely,

Mike Gleason
Commissioner
